

WORCESTER ENERGY

Residential Rebate Pilot - Rebate Table

Eligible Work (includes Equipment, Associated Labor Costs, etc.):	Rebate Amounts:
Heating & Cooling Water Boilers (Gas/Propane with AFUE* ≥ 90%; Oil with AFUE* ≥ 85%) Steam Boilers (AFUE* ≥ 82%) Warm Air Furnace (Gas/Propane with AFUE* ≥ 95%; Oil with AFUE* ≥ 83%) Ductless Mini-Split Heat Pump** (EER* ≥ 12; HSPF* ≥ 8.2; SEER* ≥ 16)	up to \$3,000¹
Insulation and Air Sealing Closed cell foam and dense-pack cellulose	up to \$2,000¹
Domestic Hot Water On Demand; Heat Pump; Indirect Water Heater	up to \$1,500¹
Heating & Cooling Air Source Heat Pump (EER* ≥ 12, SEER* ≥ 14.5, HSPF* ≥ 8.2)	up to \$1,500¹
= Total not to exceed \$5,000 per dwelling unit	
Other Measures: In addition to the above rebates, energy efficiency or renewable measures not listed above may be eligible for another \$5,000 maximum, not to exceed a total 50% of net costs.	
Eligible projects may include but are not limited to: Renewables (solar, combined heat & power, small wind, ground-source heat pump (COP* ≥ 3.3), etc.); deep energy efficiency retrofits; etc. These measures must have a <u>proven, demonstrable payback of 10-years or less</u> to be considered. Applicant will need to provide evidence of 10-year payback with the application. "Other Measures" projects may require 3rd party testing/modeling. Eligible costs include equipment, associated labor costs, etc. Please call to discuss your project's requirements.	up to \$5,000¹
Notes: 1) Rebates cannot exceed total net costs (e.g. gross costs less eligible & received MassSave/other energy efficiency incentives) for labor and materials for each project. EPS (Energy Performance Scorecard) costs are rebate eligible. 2) Low-income individual owners can be reimbursed up to 100% of net costs up to \$5,000 per dwelling unit (see the Pilot Guide & Requirements for additional information). 3) Open to owner and non-owner occupied 1-4 existing residential dwelling units, regardless of income. 4) The final determination of eligibility is made by Worcester Energy Program Manager, in their discretion, based on your application and the availability of funds. * AFUE - Annual Fuel Utilization Efficiency; COP - Coefficient of Performance; EER—Energy Efficiency Ratio; HSPF - Heating Seasonal Performance Factor; SEER—Seasonal Energy Efficiency Ratio. **Ductless Mini-Split cooling only units are not eligible.	
Please see the Pilot Guide & Requirements for more information and to learn how to apply! (www.worcesterenergy.org)
